Subject Index

At each entry, the following information is given: English title, subject and branch codes, serial number.

Insurance Mathematics

***M00:* GENERAL AND MISCELLANEOUS**

Visions and Values - Papers for a Discussion of the Vision and Values of the U.K. Actuarial Profession 273001
The Regulatory Role of the Actuary 273002

***M01:* MODELLING GENERAL**

The Asymptotic and Finite Sample Behaviour of Seasonal Unit Roots Test Under The Presence of a Break in the Deterministic Seasonal Pattern (M10) 273003
A Non-Homogeneous-Time Diffusion Model to Analyse the Convergence of ESC/DEM Exchange Rate Towards the EURO (M10) 273004
Unobservables Under Endogenous Sampling (M10) 273019
An Empirical Study of Claim and Sickness Inception Transition Intensities (Aspects of the UK Permanent Health Insurance Experience) (E61) 273076

***M10:* PROBABILITY THEORY AND MATHEMATICAL STATISTICS IN INSURANCE**

Powell's SCLS: A Newton Type Algorithm, Influence Diagnostics and Alternative Covariance Matrix Estimators (M11) 273018
The Asymptotic and Finite Sample Behaviour of Seasonal Unit Roots Test Under The Presence of a Break in the Deterministic Seasonal Pattern (M01) 273003
A Non-Homogeneous-Time Diffusion Model to Analyse the Convergence of ESC/DEM Exchange Rate Towards the EURO (M01) 273004
Applied Risk Theory (M11) 273005
A Modified Hurdle Model for Completed Fertility (M11) 273006
Using Resampling Techniques to Measure the Effectiveness of Providers in workers' Compensation Insurance (B81) 273007
A Note on Decomposing the Difference of Two Ratios 273008
On Gram-Charlier Approximation in Risk Theory (M11) 273009
A Simple Proof of a Result of Asmussen (M13) 273010
Power Tailed Ruin Probabilities in the Presence of Risky Investments (M13) 273011
On The Time To Ruin For Erlang Risk Processes (M13) 273012
Stochastic Processes Learning the Language (M11) 273013
A Markov Chain Financial Market (M11) 273014
On the Vandermonde Matrix and its role in mathematical Finance (M11) 273015
The Statistical Distribution of Incurred Losses and Its Evolution Over Time (I) Non-Parametric Models (M31) 273016
The Statistical Distribution of Incurred Losses and Its Evolution Over Time (II) Parametric Models (M31) 273017
Unobservables Under Endogenous Sampling (M01) 273019
The Behaviour of Seasonal Unit Root test for Quarterly Time Series with Seasonal Mean Shifts (M11) 273020
Bayesian Forecasting for Accident Proneness Evaluation (M11) 273021
A Note on Loadings and Deductibles: Can a Vicious Circle Arise? (M30) 273022
On Numerical Evaluation Of Finite Time Survival Probabilities (M11) 273023
The Long-Term Pattern of Adult Mortality and the Highest Attained Age (M12) 273024
Spurious Deterministic Seasonality and Autocorrelation Corrections with Quarterly Data: Further Monte Carlo Results (M20) 273028

Non Parametric Likelihood Enhancements To Parametric Graduations (M21) 273029
The Need For Theory In Actuarial Economic Models (E10) 273043

***M11:* STOCHASTIC MODELS FOR CLAIMS FREQUENCY**
Lorenz and Excess Wealth Orders, With Applications in Reinsurance Theory (M52) 273040
Powell's SCLS: A Newton Type Algorithm, Influence Diagnostics and Alternative Covariance Matrix Estimators (M10) 273018
Applied Risk Theory (M10) 273005
A Modified Hurdle Model for Completed Fertility (M10) 273006
On Gram-Charlier Approximation in Risk Theory (M10) 273009
Stochastic Processes Learning the Language (M10) 273013
A Markov Chain Financial Market (M10) 273014
On the Vandermonde Matrix and its role in mathematical Finance (M10) 273015
The Behaviour of Seasonal Unit Root test for Quarterly Time Series with Seasonal Mean Shifts (M10) 273020
Bayesian Forecasting for Accident Proneness Evaluation (M10) 273021
On Numerical Evaluation Of Finite Time Survival Probabilities (M10) 273023
Numerical Finite-Time Ruin Probabilities by the Picard-Lefèvre Formula (M13) 273025
Approximations for Finite Horizon Ruin Probabilities in the Renewal Model (M13) 273026
Second order Behaviour of Ruin Probabilities (M13) 273027

***M12:* MODELLING OF PORTFOLIOS AND COLLECTIVES**
The Long-Term Pattern of Adult Mortality and the Highest Attained Age (M10) 273024

***M13:* RUIN AND OTHER STABILITY CRITERIA**
A Simple Proof of a Result of Asmussen (M10) 273010
Power Tailed Ruin Probabilities in the Presence of Risky Investments (M10) 273011
On The Time To Ruin For Erlang Risk Processes (M10) 273012
Numerical Finite-Time Ruin Probabilities by the Picard-Lefèvre Formula (M11) 273025
Approximations for Finite Horizon Ruin Probabilities in the Renewal Model (M11) 273026
Second order Behaviour of Ruin Probabilities (M11) 273027

***M20:* NUMERICAL ANALYSIS IN INSURANCE**
Spurious Deterministic Seasonality and Autocorrelation Corrections with Quarterly Data: Further Monte Carlo Results (M10) 273028

***M21:* GRADUATION**
Non Parametric Likelihood Enhancements To Parametric Graduations (M10) 273029

***M22:* COMPUTER ORIENTED APPROACHES TO RISK AND SIMULATION**
Bayesian Forecasting via Deterministic Model (M30) 273031
Using Animated Probability Plots to Explore the Suitability of Mixture with Two Component Distributions (M30) 273032

***M30:* PREMIUM**
A Note on Loadings and Deductibles: Can a Vicious Circle Arise? (M10) 273022
European Auto Insurance Pricing Considerations (E60) 273030
Bayesian Forecasting via Deterministic Model (M22) 273031
Using Animated Probability Plots to Explore the Suitability of Mixture with Two Component Distributions (M22) 273032
Source of Earnings Analysis for Property-Casualty Insurers (M31) 273034
Premium Trend Revisited (M31) 273035
The Impact of Personal Credit History on Loss Performance in Personal Lines (M31) 273036

Ratemaking Considerations for Multiple Peril Crop Insurance (M31)
Measurement of the Effect of Classification Factor Changes in Complex Rating Plans (M31)

***M31:* EXPERIENCE RATING**
The Statistical Distribution of Incurred Losses and Its Evolution Over Time
(I) Non-Parametric Models (M10)
The Statistical Distribution of Incurred Losses and Its Evolution Over Time
(II) Parametric Models (M10)
Source of Earnings Analysis for Property-Casualty Insurers (M30)
Premium Trend Revisited (M30)
The Impact of Personal Credit History on Loss Performance in Personal Lines (M30)
Ratemaking Considerations for Multiple Peril Crop Insurance (M30)
Measurement of the Effect of Classification Factor Changes in Complex Rating Plans (M30)

***M32:* DEDUCTIBLES**
Pricing for the Financial Risk of Uncollateralized Deductible Policies (E50)

***M40:* RESERVES**
An Analysis of the Level of Security Provided by The Minimum Funding Requirement (E40)

***M52:* REINSURANCE**
Lorenz and Excess Wealth Orders, With Applications in Reinsurance Theory (M11)

***M54:* CATASTROPHIC RISKS**
The Complementary Roles of Mitigation and Insurance in Managing Catastrophic Risks (E43)

Insurance Economics

E10: **INSURANCE RELATED MATHEMATICAL ECONOMICS**

The Econometrics of Risk Classification in Insurance (E11)	273041
The Design of an Optimal Area Yield Crop Insurance Contract (E30)	273042
The Need For Theory In Actuarial Economic Models (M10)	273043
Portfolio Based Pricing of Residual Basis Risk with Application to the S&P 500 Put Options (E13)	273044
The Closed Fund Alternative (E40)	273045

E11: **EQUILIBRIUM THEORY**

The Econometrics of Risk Classification in Insurance (E10)	273041

E13: **PORTFOLIO THEORY**

Portfolio Based Pricing of Residual Basis Risk with Application to the S&P 500 Put Options (E10)	273044

E20: **MACRO-ECONOMIC INFLUENCES**

International Reserves and Liquidity: a Reassessment (E60)	273046

E30: **INSURANCE RELATED MICRO-ECONOMIC THEORY**

The Design of an Optimal Area Yield Crop Insurance Contract (E10)	273042
Heuristic-Systematic Information Processing and Risk Judgement	273047
The Coexistence of the Distribution Systems When Consumers Are Not Informed (E32)	273048
Corporate Insurance as a Necessary Form of Consultant-Investigator Contract	273049
Experimental Tests of Self-Selection ad Screening in Insurance Decisions (E32)	273050

E32: **CONSUMER RELATED MICRO-ECONOMICS**

The Coexistence of the Distribution Systems When Consumers Are Not Informed (E30)	273048
Experimental Tests of Self-Selection ad Screening in Insurance Decisions (E30)	273050

E40: **BUSINESS ECONOMICS**

The Closed Fund Alternative (E10)	273045
Geographical Dimensions and Correlates of Trust	273051
An Analysis of the Level of Security Provided by The Minimum Funding Requirement (M40)	273052
Enterprise Technology Projects and the Role of the Actuary (E45)	273065
Per Aspera: The Last Few Obstacles on the Way to Digital Paradise (E45)	273066
A Continuous Performance Investigation Of Selected U.K. Equities (E60)	273075

E43: **RISK MANAGEMENT**

Statistical Evaluation of Population Data for Calculation of Radioactive Material Transport Accident Risks	273053
Combining Probability Distributions From Experts in Risk Analysis	273054
Risk Assessment Based on Financial Data: Market Response to Airline Accidents	273055
Challenges to the Acceptance of Probabilistic Risk Analysis	273056
The Complementary Roles of Mitigation and Insurance in Managing Catastrophic Risks (M54)	273057
Enterprise Risk Management: A Consultative Perspective	273058
Pricing Multiple Triggers-An Electrifying Example	273059

E44: **PREVENTION**

Fundamental of Health Risk Assessment - Use, Derivation, Facility and Limitations of Safety Indices	273063
The Power of Perception Health Risk Attributed to Air Pollution in an Urban Industrial Neighbourhood	273060

Methods for Detecting and Estimating Population Threshold Concentrations for Air Pollution-Related Mortality with Exposure Measurement Error 273061
Estimating Risk Assessment Exposure Point Concentrations when the Data Are Not Normal or Lognormal 273062
Estimating Noncancer Uncertainty Factors - Are Ratios NOAELs Informative? 273064

E45: **TECHNOLOGY**
Enterprise Technology Projects and the Role of the Actuary (E40) 273065
Per Aspera: The Last Few Obstacles on the Way to Digital Paradise (E40) 273066

E50: **FINANCE**
Pricing for the Financial Risk of Uncollateralized Deductible Policies (M32) 273039
Unit-linked Life Insurance Contracts with Lapse Rates Depending on Economic Factors 273067
Risk-Minimisation for Unit-Linked Insurance Contracts in Two-and Multiple-Period Models (E51) 273068
A Continuous Time Model of the Spot Interest Rate with Exponential Volatility (E51) 273069
Are National Public Finances Sustainable in the EU? (E60) 273072

E51: **RATES OF INTEREST**
Risk-Minimisation for Unit-Linked Insurance Contracts in Two-and Multiple-Period Models (E50) 273068
A Continuous Time Model of the Spot Interest Rate with Exponential Volatility (E50) 273069

E53: **INVESTMENT**
Investment Returns and Inflation Models: Some Australian Evidence (E61) 273070

E60: **SURVEYS**
European Auto Insurance Pricing Considerations (M30) 273030
International Reserves and Liquidity: a Reassessment (E20) 273046
The Benefits and Challenges of Profiling Providers in workers Compensation (B81) 273071
Are National Public Finances Sustainable in the EU? (E50) 273072
Developing an International Accounting Standard For Life Assurance Business 273073
The Role and Responsibilities of Actuaries in the Defined Contribution Environment in the U.K (B13) 273074
A Continuous Performance Investigation Of Selected U.K. Equities (E40) 273075

E61: **NATIONAL SURVEYS**
Investment Returns and Inflation Models: Some Australian Evidence (E53) 273070
An Empirical Study of Claim and Sickness Inception Transition Intensities (Aspects of the UK Permanent Health Insurance Experience) (M01) 273076

Insurance Branch Index

B13: **LIFE PENSION**

The Role and Responsibilities of Actuaries in the Defined Contribution Environment in the U.K (E60) 273074

B81: **PENSION**

Using Resampling Techniques to Measure the Effectiveness of Providers in workers' Compensation Insurance (M10) 273007

The Benefits and Challenges of Profiling Providers in workers Compensation (E60) 273071

Keyword Index

At each entry, the following information is given: serial number, other keywords, subject and branch codes.

Acceptable Daily Intake
273063 Health risk assessment; Hazard characterisation; Reference Dose; Paradigm; Practices; Cancer; Non-cancer (E44)
Accident risk
273053 Population distribution; RADTRAN; Transportation; Radioactive materials (E43)
Accounting principles
273073 Accounting; International accounting standards; GAAP; Profits; Life Insurance (E60)
Accounting
273073 Accounting principles; International accounting standards; GAAP; Profits; Life Insurance (E60)
Actuarial Opinions
273002 Appointed Actuary; Scheme Actuary; Whistle-Blowing; Public Interest (M00)
Actuarial pricing method
273044 Financial option pricing method (E10; E13)
Actuarial Profession
273001 Vision; Values; Future Trends (M00)
Adverse selection
273041 Risk classification; Moral hazard; Poisson-gamma model; Bonus-malus (E10; E11)
Ageing
273024 Extreme values; Lifespan; Logistic Model; Longevity; Mortality (M12; M10)
Agency problems
273049 Corporate insurance; Business insurance (E30)
Aggregate claim distributions
273009 Approximation of claim distributions; Central limit theorem; Expansions in series of Hermite polynomials; Moment problem (M10; M11)
Aggregation
273046 International reserves; International liquidity; Quantity index; Index numbers (E20; E60)
Air pollution
273061 Threshold; Measurements error; Mortality (E44)
Air quality environmental justice
273060 Risk perception; Community health survey (E44)
Airline industry
273055 Market response; Risk assessment; Airplane accidents (E43)
Airplane accidents
273055 Market response; Risk assessment; Airline industry (E43)
Appointed Actuary
273002 Scheme Actuary; Actuarial Opinions; Whistle-Blowing; Public Interest (M00)
Approximation of claim distributions
273009 Aggregate claim distributions; Central limit theorem; Expansions in series of Hermite polynomials; Moment problem (M10; M11)
Arbitrage pricing theory
273014 Continuous time Markov Chains; Martingale analysis; Risk minimisation; Insurance derivatives; interest rate guarantees (M10; M11)
Arrow-Ohlin Theorem
273040 Convex order; Dispersive order; Excess wealth; Lorenz order; Optimal reinsurance ; Order loss ratios; Stochastic dominance (M52; M11)
Auto Insurance
273030 European market (M30; E60)
Bayesian method
273031 Probabilistic forecasting; Uncertainty quantification; Monte-Carlo simulation; Decision making (M30; M22)
Bayesian
273063 Health risk assessment; Hazard characterisation; Acceptable Daily Intake; Reference Dose; Paradigm; Practices; Cancer; Non-cancer (E44)
Bivariate distributions
273032 Monte Carlo; Correlation; Copulas; dioxins (M30; M22)
Bond markets
273015 Vandermonde matrix; Completeness; Ornstein-Uhlenbeck process (M10; M11)
Bonus-malus
273041 Risk classification; Adverse selection; Moral hazard; Poisson-gamma model (E10; E11)
Bootstrapping
273018 Tobit models; Leverage (M10; M11)
273062 Risk assessment; Exposure point concentration; Gamma distribution; Lognormal (E44)
Building codes
273057 Mitigation; Insurance; Catastrophic risk (E43; M54)
Business insurance
273049 Corporate insurance; Agency problems (E30)
Calibration
273064 Noncancer risk; Uncertainty analysis; Systematic error; Censoring; Relative potency; Safety factor (E44)

Cancer
273063 Health risk assessment; Hazard characterisation; Acceptable Daily Intake; Reference Dose; Paradigm; Practices; Non-cancer (E44)

Casualty Insurance
273035 Ratemaking; Property Insurance (M31; M30)

Catastrophic risk
273057 Mitgation; Insurance; Building codes (E43; M54)

Censoring
273064 Noncancer risk; Uncertainty analysis; Systematic error; Calibration; Relative potency; Safety factor (E44)

Central limit theorem
273009 Aggregate claim distributions; Approximation of claim distributions; Expansions in series of Hermite polynomials; Moment problem (M10; M11)

Claim inception intensities
273076 Sickness inception intensities (E61; M01)

Classification
273038 Ratemaking (M31; M30)

Closed Fund Alternative
273045 Closed Fund; Demutualisation; Independent Actuary; Mutual; Schedule 2C (E10; E40)

Closed Fund
273045 Closed Fund Alternative; Demutualisation; Independent Actuary; Mutual; Schedule 2C (E10; E40)

Co-integration
273070 Stochastic Models; Unit Roots; State Space Models; Inflation; Interest Rates; Share Market (E53; E61)

Combining probabilities
273054 Expert judgement; Probability assessment (E43)

Community health survey
273060 Risk perception; Air quality environmental justice (E44)

Completeness
273015 Vandermonde matrix; Bond markets; Ornstein-Uhlenbeck process (M10; M11)

Conditional likelihood
273019 Measurement error; Neglected heterogeneity; Semiparametric estimation (M10; M01)

Consumer search behaviour
273048 Distribution systems; Price dispersion; Long-run equilibrium; Uninformed consumers (E30; E32)

Continuous time Markov Chains
273014 Martingale analysis; arbitrage pricing theory; Risk minimisation; Insurance derivatives; interest rate guarantees (M10; M11)

Continuous time model
273069 Spot interest rate (E50; E51)

Convex order
273040 Arrow-Ohlin Theorem; Dispersive order; Excess wealth; Lorenz order; Optimal reinsurance ; Order loss ratios; Stochastic dominance (M52; M11)

Copulas
273032 Monte Carlo; Correlation; Bivariate distributions; dioxins (M30; M22)

Corporate culture
273056 Probabilistic risk analysis; Subjective judgement; Risk-informed regulation; Robust Bayesian analysis; Human performance; Human error; management and organisational factors (E43)

Corporate insurance
273049 Business insurance; Agency problems (E30)

Correlation
273032 Monte Carlo; Copulas; Bivariate distributions; dioxins (M30; M22)

Count Data
273006 Generalised Poisson; Hurdle Models; Underdispersion (M10; M11)

Credibility theory
273016 Distribution of incurred losses; Credible distribution (M10; M31)
273017 Distribution of incurred losses (M10; M31)

Credible distribution
273016 Distribution of incurred losses; Credibility theory (M10; M31)

Credit insurance
273036 Expected loss; Ratemaking (M31; M30)

Crop insurance
273042 Yield options contracts; Incomplete markets; Systemic risk (E10; E30)

Decision making
273031 Probabilistic forecasting; Uncertainty quantification; Bayesian method; Monte-Carlo simulation (M30; M22)

Decomposing ratios
273008 (M10)

Deductible policies
273039 Financial risk (M32; E50)

Deductibles
273022 Insurance; Loadings; Stackelberg equilibrium (M10; M30)

Default options
273063 Health risk assessment; Hazard characterisation; Acceptable Daily Intake; Reference Dose; Paradigm; Practices; Cancer; Non-cancer (E44)

Defined Benefit
273074 Scheme Actuary; Pension Schemes; Defined Contribution; Public Interest (E60; B13)

Defined Contribution
273074 Scheme Actuary; Pension Schemes; Defined Benefit; Public Interest (E60; B13)

Demutualisation
273045 Closed Fund; Closed Fund Alternative; Independent Actuary; Mutual; Schedule 2C (E10; E40)

Diffusion model
273004 Exchange rate; EURO (M01; M10)

Dioxins
273032 Monte Carlo; Correlation; Copulas; Bivariate distributions (M30; M22)

Dispersive order
273040 Arrow-Ohlin Theorem; Convex order; Excess wealth; Lorenz order; Optimal reinsurance; Order loss ratios; Stochastic dominance (M52; M11)

Distribution of incurred losses
273016 Credible distribution; Credibility theory (M10; M31)
273017 Credibility theory (M10; M31)

Distribution systems
273048 Price dispersion; Consumer search behaviour; Long-run equilibrium; Uninformed consumers (E30; E32)

Downside Risk
273052 MFR; Simulation; Value-at-Risk Reserves; Static Hedging (E40; M40)

Earnings analyse
273034 Property insurance (M31; M30)

Efficiency Ratio
273075 Efficient Market Hypothesis; Equity Share Selection; Relative Return; Risk Utility Ranking (E60; E40)

Efficient Market Hypothesis
273075 Efficiency Ratio; Equity Share Selection; Relative Return; Risk Utility Ranking (E60; E40)

Environment
273051 Trust; Geography; Personality (E40)

Equity Share Selection
273075 Efficiency Ratio; Efficient Market Hypothesis; Relative Return; Risk Utility Ranking (E60; E40)

Erlang risk process
273012 Time to ruin (M10; M13)

EU
273072 Public finance (E60; E50)

EURO
273004 Exchange rate; Diffusion model (M01; M10)

European market
273030 Auto Insurance (M30; E60)

Excess wealth
273040 Arrow-Ohlin Theorem; Convex order; Dispersive order; Lorenz order; Optimal reinsurance ; Order loss ratios; Stochastic dominance (M52; M11)

Exchange rate
273004 EURO; Diffusion model (M01; M10)

Expansions in series of Hermite polynomials
273009 Aggregate claim distributions; Approximation of claim distributions; Central limit theorem; Moment problem (M10; M11)

Expected loss
273036 Credit insurance; Ratemaking (M31; M30)

Expert judgement
273054 Combining probabilities; Probability assessment (E43)

Exposure point concentration
273062 Risk assessment; Bootstrapping; Gamma distribution; Lognormal (E44)

Extreme values
273024 Ageing; Lifespan; Logistic Model; Longevity; Mortality (M12; M10)

Financial Economics
273043 Methodology; Jump-Equilibrium Model; Wilkie's Model (E10; M10)

Financial Mathematics
273013 General Insurance Mathematics; Life Insurance Mathematics; Stochastic Processes (M10; M11)

Financial option pricing method
273044 Actuarial pricing method (E10; E13)

Financial risk
273039 Deductible policies (M32; E50)
273067 Unit-linked insurance; Lapse rates; Marked point process (E50)

Finite horizon
273026 Renewal model; Risk theory (M13; M11)

Finite time ruin probabilities
273025 Panjer recursion (M13; M11)

Finite Time
273023 Ruin/Survival Probability; Recursive Calculation (M10; M11)

Forecasting
273021 insurance; Poisson-gamma models; Robustness; Simulation (M10; M11)

Future Trends

273001 Actuarial Profession; Vision; Values (M00)

GAAP

273073 Accounting; Accounting principles; International accounting standards; Profits; Life Insurance (E60)

Gamma distribution

273062 Risk assessment; Exposure point concentration; Bootstrapping; Lognormal (E44)

General Insurance Mathematics

273013 Financial Mathematics; Life Insurance Mathematics; Stochastic Processes (M10; M11)

Generalised Poisson

273006 Count Data; Hurdle Models; Underdispersion (M10; M11)

Geography

273051 Trust; Personality; Environment (E40)

Hazard characterisation

273063 Health risk assessment; Acceptable Daily Intake; Reference Dose; Paradigm; Practices; Cancer; Non-cancer (E44)

Health risk assessment

273063 Hazard characterisation; Acceptable Daily Intake; Reference Dose; Paradigm; Practices; Cancer; Non-cancer (E44)

Hedging strategy

273068 Risk-minimization; Incomplete market; Life insurance; Superreplication (E50; E51)

HEGY tests

273003 Seasonality; Unit Roots; Structural breaks (M01; M10)

273020 Seasonality; unit roots; Structural breaks (M10; M11)

Heuristic-systematic processing

273047 Risk judgement; Risk communication (E30)

Human error

273056 Probabilistic risk analysis; Subjective judgement; Risk-informed regulation; Robust Bayesian analysis; Human performance; management and organisational factors; Corporate culture (E43)

Human performance

273056 Probabilistic risk analysis; Subjective judgement; Risk-informed regulation; Robust Bayesian analysis; Human error; management and organisational factors; Corporate culture (E43)

Hurdle Models

273006 Count Data; Generalised Poisson; Underdispersion (M10; M11)

Incomplete market

273068 Risk-minimization; Hedging strategy; Life insurance; Superreplication (E50; E51)

273042 Crop insurance; Yield options contracts; Systemic risk (E10; E30)

Independent Actuary

273045 Closed Fund; Closed Fund Alternative; Demutualisation; Mutual; Schedule 2C (E10; E40)

Index numbers

273046 International reserves; International liquidity; aggregation; Quantity index (E20; E60)

Inflation

273070 Stochastic Models; Unit Roots; Co-integration; State Space Models; Interest Rates; Share Market (E53; E61)

Information asymmetry

273050 Self-selection; Screening; Insurance makers (E32; E30)

Insurance derivatives

273014 Continuous time Markov Chains; Martingale analysis; arbitrage pricing theory; Risk minimisation; interest rate guarantees (M10; M11)

Insurance makers

273050 Self-selection; Screening; Information asymmetry (E32; E30)

Insurance Risk

273027 Integrated tail; Random walk; Ruin probability; Subexponential distribution; Wiener-Hopf factors (M13; M11)

Insurance

273021 Forecasting; Poisson-gamma models; Robustness; Simulation (M10; M11)

273022 Deductibles; Loadings; Stackelberg equilibrium (M10; M30)

273057 Mitgation; Catastrophic risk; Building codes (E43; M54)

Integrated tail

273027 Insurance Risk; Random walk; Ruin probability; Subexponential distribution; Wiener-Hopf factors (M13; M11)

Interest force

273010 Ruin probability; Risk model; Subexponential distribution (M10; M13)

Interest rate guarantees

273014 Continuous time Markov Chains; Martingale analysis; arbitrage pricing theory; Risk minimisation; Insurance derivatives (M10; M11)

Interest Rates

273070 Stochastic Models; Unit Roots; Co-integration; State Space Models; Inflation; Share Market (E53; E61)

International accounting standards

273073 Accounting; Accounting principles; GAAP; Profits; Life Insurance (E60)

International liquidity
273046 International reserves; aggregation; Quantity index; Index numbers (E20; E60)
International reserves
273046 International liquidity; aggregation; Quantity index; Index numbers (E20; E60)
Jump-Equilibrium Model
273043 Methodology; Financial Economics; Wilkie's Model (E10; M10)
Lapse rates
273067 Unit-linked insurance; Financial risk; Marked point process (E50)
Leverage
273018 Tobit models; Bootstrap (M10; M11)
Lévy processes
273011 Probability of ruin; Stochastic interest; two-sided bounds (M10; M13)
Life Insurance Mathematics
273013 Financial Mathematics; General Insurance Mathematics; Stochastic Processes (M10; M11)
Life insurance
273068 Risk-minimization; Incomplete market; Hedging strategy; Superreplication (E50; E51)
273073 Accounting; Accounting principles; International accounting standards; GAAP; Profits (E60)
Lifespan
273024 Ageing; Extreme values; Logistic Model; Longevity; Mortality (M12; M10)
Loadings
273022 Deductibles; Insurance; Stackelberg equilibrium (M10; M30)
Logistic Model
273024 Ageing; Extreme values; Lifespan; Longevity; Mortality (M12; M10)
Lognormal
273062 Risk assessment; Exposure point concentration; Bootstrapping; Gamma distribution (E44)
Longevity
273024 Ageing; Extreme values; Lifespan; Logistic Model; Mortality (M12; M10)
Long-run equilibrium
273048 Distribution systems; Price dispersion; Consumer search behaviour; Uninformed consumers (E30; E32)
Lorenz order
273040 Arrow-Ohlin Theorem; Convex order; Dispersive order; Excess wealth; Optimal reinsurance ; Order loss ratios; Stochastic dominance (M52; M11)
Management and organisational factors
273056 Probabilistic risk analysis; Subjective judgement; Risk-informed regulation; Robust Bayesian analysis; Human performance; Human error; Corporate culture (E43)
Marked point process
273067 Unit-linked insurance; Financial risk; Lapse rates (E50)
Market response
273055 Risk assessment; Airplane accidents; Airline industry (E43)
Martingale analysis
273014 Continuous time Markov Chains; arbitrage pricing theory; Risk minimisation; Insurance derivatives; interest rate guarantees (M10; M11)
Measurement error
273019 Conditional likelihood; Neglected heterogeneity; Semiparametric estimation (M10; M01)
273061 Threshold; Mortality; Air pollution (E44)
Methodology
273043 Financial Economics; Jump-Equilibrium Model; Wilkie's Model (E10; M10)
MFR
273052 Simulation; Downside Risk; Value-at-Risk Reserves; Static Hedging (E40; M40)
Mitigation
273057 Insurance; Catastrophic risk; Building codes (E43; M54)
Moment problem
273009 Aggregate claim distributions; Approximation of claim distributions; Central limit theorem; Expansions in series of Hermite polynomials (M10; M11)
Monte Carlo
273028 Seasonality; Unit roots; Spurious regression (M20; M10)
273032 Correlation; Copulas; Bivariate distributions; dioxins (M30; M22)
Monte-Carlo simulation
273031 Probabilistic forecasting; Uncertainty quantification; Bayesian method; Decision making (M30; M22)
Moral hazard
273041 Risk classification; Adverse selection; Poisson-gamma model; Bonus-malus (E10; E11)
Mortality
273024 Ageing; Extreme values; Lifespan; Logistic Model; Longevity (M12; M10)
273061 Threshold; Measurements error; Air pollution (E44)
Multiple Peril Crop insurance

273037 Ratemaking (M31; M30)

Mutual

273045 Closed Fund; Closed Fund Alternative; Demutualisation; Independent Actuary; Schedule 2C (E10; E40)

Neglected heterogeneity

273019 Conditional likelihood; Measurement error; Semiparametric estimation (M10; M01)

New technologies

273065 (E45; E40)

273066 (E45; E40)

Non life insurance

273005 Risk theory (M10; M11)

Non parametric

273007 Resampling; Workmen's compensation insurance (M10; B81)

Non-cancer risk

273064 Uncertainty analysis; Systematic error; Calibration; Censoring; Relative potency; Safety factor (E44)

Non-cancer

273063 Health risk assessment; Hazard characterisation; Acceptable Daily Intake; Reference Dose; Paradigm; Practices; Cancer (E44)

Non-parametric graduation

273029 Whittaker-Henderson Graduation (M21; M10)

Optimal reinsurance

273040 Arrow-Ohlin Theorem; Convex order; Dispersive order; Excess wealth; Lorenz order; Order loss ratios; Stochastic dominance (M52; M11)

Order loss ratios

273040 Arrow-Ohlin Theorem; Convex order; Dispersive order; Excess wealth; Lorenz order; Optimal reinsurance ; Stochastic dominance (M52; M11)

Ornstein-Uhlenbeck process

273015 Vandermonde matrix; Bond markets; Completeness (M10; M11)

Panjer recursion

273025 Finite time ruin probabilities (M13; M11)

Paradigm

273063 Health risk assessment; Hazard characterisation; Acceptable Daily Intake; Reference Dose; Practices; Cancer; Non-cancer (E44)

Pension Schemes

273074 Scheme Actuary; Defined Benefit; Defined Contribution; Public Interest (E60; B13)

Personality

273051 Trust; Geography; Environment (E40)

Poisson-gamma model

273041 Risk classification; Adverse selection; Moral hazard; Bonus-malus (E10; E11)

273021 Forecasting; insurance; Robustness; Simulation (M10; M11)

Population distribution

273053 Accident risk; RADTRAN; Transportation; Radioactive materials (E43)

Practices

273063 Health risk assessment; Hazard characterisation; Acceptable Daily Intake; Reference Dose; Paradigm; Cancer; Non-cancer (E44)

Price dispersion

273048 Distribution systems; Consumer search behaviour; Long-run equilibrium; Uninformed consumers (E30; E32)

Probabilistic forecasting

273031 Uncertainty quantification; Bayesian method; Monte-Carlo simulation; Decision making (M30; M22)

Probabilistic risk analysis

273056 Subjective judgement; Risk-informed regulation; Robust Bayesian analysis; Human performance; Human error; management and organisational factors; Corporate culture (E43)

Probability assessment

273054 Combining probabilities; Expert judgement (E43)

Probability of ruin

273011 Stochastic interest; Lévy processes; two-sided bounds (M10; M13)

Profits

273073 Accounting; Accounting principles; International accounting standards; GAAP; Life Insurance (E60)

Property insurance

273034 Earnings analyse (M31; M30)

273035 Ratemaking; Casualty Insurance (M31; M30)

Public finance

273072 EU (E60; E50)

Public Interest

273002 Appointed Actuary; Scheme Actuary; Actuarial Opinions; Whistle-Blowing (M00)

273074 Scheme Actuary; Pension Schemes; Defined Benefit; Defined Contribution (E60; B13)

Quantity index

273046 International reserves; International liquidity; aggregation; Index numbers (E20; E60)

Radioactive materials
273053 Accident risk; Population distribution; RADTRAN; Transportation (E43)
RADTRAN
273053 Accident risk; Population distribution; Transportation; Radioactive materials (E43)
Random walk
273027 Insurance Risk; Integrated tail; Ruin probability; Subexponential distribution; Wiener-Hopf factors (M13; M11)
Ratemaking
273035 Casualty Insurance; Property Insurance (M31; M30)
273036 Credit insurance; Expected loss (M31; M30)
273037 Multiple Peril Crop insurance (M31; M30)
273038 Classification (M31; M30)
Recursive Calculation
273023 Ruin/Survival Probability; Finite Time (M10; M11)
Reference Dose
273063 Health risk assessment; Hazard characterisation; Acceptable Daily Intake; Paradigm; Practices; Cancer; Non-cancer (E44)
Relative potency
273064 Noncancer risk; Uncertainty analysis; Systematic error; Calibration; Censoring; Safety factor (E44)
Relative Return
273075 Efficiency Ratio; Efficient Market Hypothesis; Equity Share Selection; Risk Utility Ranking (E60; E40)
Renewal model
273026 Finite horizon; Risk theory (M13; M11)
Resampling
273007 Non parametric; Workmen's compensation insurance (M10; B81)
Risk assessment
273055 Market response; Airplane accidents; Airline industry (E43)
273062 Exposure point concentration; Bootstrapping; Gamma distribution; Lognormal (E44)
Risk classification
273041 Adverse selection; Moral hazard; Poisson-gamma model; Bonus-malus (E10; E11)
Risk communication
273047 Risk judgement; Heuristic-systematic processing (E30)
Risk judgement
273047 Risk communication; Heuristic-systematic processing (E30)
Risk management
273058 (E43)
273059 (E43)
Risk minimisation
273014 Continuous time Markov Chains; Martingale analysis; arbitrage pricing theory; Insurance derivatives; interest rate guarantees (M10; M11)
Risk model
273010 Ruin probability; Subexponential distribution; interest force (M10; M13)
Risk perception
273060 Air quality environmental justice; Community health survey (E44)
Risk theory
273005 Non life insurance (M10; M11)
273026 Finite horizon; Renewal model (M13; M11)
Risk Utility Ranking
273075 Efficiency Ratio; Efficient Market Hypothesis; Equity Share Selection; Relative Return (E60; E40)
Risk-informed regulation
273056 Probabilistic risk analysis; Subjective judgement; Robust Bayesian analysis; Human performance; Human error; management and organisational factors; Corporate culture (E43)
Risk-minimization
273068 Incomplete market; Hedging strategy; Life insurance; Superreplication (E50; E51)
Robust Bayesian analysis
273056 Probabilistic risk analysis; Subjective judgement; Risk-informed regulation; Human performance; Human error; management and organisational factors; Corporate culture (E43)
Robustness
273021 Forecasting; insurance; Poisson-gamma models; Simulation (M10; M11)
Ruin probability
273010 Risk model; Subexponential distribution; interest force (M10; M13)
273027 Insurance Risk; Integrated tail; Random walk; Subexponential distribution; Wiener-Hopf factors (M13; M11)
Ruin/Survival Probability
273023 Finite Time; Recursive Calculation (M10; M11)
Safety factor
273064 Noncancer risk; Uncertainty analysis; Systematic error; Calibration; Censoring; Relative potency (E44)
Schedule 2C
273045 Closed Fund; Closed Fund Alternative; Demutualisation; Independent Actuary; Mutual (E10; E40)

Scheme Actuary
273002 Appointed Actuary; Actuarial Opinions; Whistle-Blowing; Public Interest (M00)
273074 Pension Schemes; Defined Benefit; Defined Contribution; Public Interest (E60; B13)

Screening
273050 Self-selection; Information asymmetry; Insurance makers (E32; E30)

Seasonality
273003 Unit Roots; Structural breaks; HEGY tests (M01; M10)
273020 unit roots; Structural breaks; HEGY tests (M10; M11)
273028 Unit roots; Spurious regression; Monte Carlo (M20; M10)

Self-selection
273050 Screening; Information asymmetry; Insurance makers (E32; E30)

Semiparametric estimation
273019 Conditional likelihood; Measurement error; Neglected heterogeneity (M10; M01)

Share Market
273070 Stochastic Models; Unit Roots; Co-integration; State Space Models; Inflation; Interest Rates (E53; E61)

Sickness inception intensities
273076 Claim inception intensities (E61; M01)

Simulation
273021 Forecasting; insurance; Poisson-gamma models; Robustness (M10; M11)
273052 MFR; Downside Risk; Value-at-Risk Reserves; Static Hedging (E40; M40)

Spot interest rate
273069 Continuous time model (E50; E51)

Spurious regression
273028 Seasonality; Unit roots; Monte Carlo (M20; M10)

Stackelberg equilibrium
273022 Deductibles; Insurance; Loadings (M10; M30)

State Space Models
273070 Stochastic Models; Unit Roots; Co-integration; Inflation; Interest Rates; Share Market (E53; E61)

Static Hedging
273052 MFR; Simulation; Downside Risk; Value-at-Risk Reserves (E40; M40)

Stochastic dominance
273040 Arrow-Ohlin Theorem; Convex order; Dispersive order; Excess wealth; Lorenz order; Optimal reinsurance ; Order loss ratios (M52; M11)

Stochastic interest
273011 Probability of ruin; Lévy processes; two-sided bounds (M10; M13)

Stochastic Models
273070 Unit Roots; Co-integration; State Space Models; Inflation; Interest Rates; Share Market (E53; E61)

Stochastic Processes
273013 Financial Mathematics; General Insurance Mathematics; Life Insurance Mathematics (M10; M11)

Stop-loss order
273040 Arrow-Ohlin Theorem; Convex order; Dispersive order; Excess wealth; Lorenz order; Optimal reinsurance ; Order loss ratios; Stochastic dominance (M52; M11)

Structural breaks
273003 Seasonality; Unit Roots; HEGY tests (M01; M10)
273020 Seasonality; unit roots; HEGY tests (M10; M11)

Subexponential distribution
273010 Ruin probability; Risk model; interest force (M10; M13)
273027 Insurance Risk; Integrated tail; Random walk; Ruin probability; Wiener-Hopf factors (M13; M11)

Subjective judgement
273056 Probabilistic risk analysis; Risk-informed regulation; Robust Bayesian analysis; Human performance; Human error; management and organisational factors; Corporate culture (E43)

Superreplication
273068 Risk-minimization; Incomplete market; Hedging strategy; Life insurance (E50; E51)

Systematic error
273064 Noncancer risk; Uncertainty analysis; Calibration; Censoring; Relative potency; Safety factor (E44)

Systemic risk
273042 Crop insurance; Yield options contracts; Incomplete markets (E10; E30)

Threshold
273061 Measurements error; Mortality; Air pollution (E44)

Time to ruin
273012 Erlang risk process (M10; M13)

Tobit models
273018 Leverage; Bootstrap (M10; M11)

Transportation
273053 Accident risk; Population distribution; RADTRAN; Radioactive materials (E43)

Trust
273051 Geography; Personality; Environment (E40)
Two-sided bounds
273011 Probability of ruin; Stochastic interest; Lévy processes (M10; M13)
Uncertainty analysis
273064 Noncancer risk; Systematic error; Calibration; Censoring; Relative potency; Safety factor (E44)
Uncertainty quantification
273031 Probabilistic forecasting; Bayesian method; Monte-Carlo simulation; Decision making (M30; M22)
Underdispersion
273006 Count Data; Generalised Poisson; Hurdle Models (M10; M11)
Uninformed consumers
273048 Distribution systems; Price dispersion; Consumer search behaviour; Long-run equilibrium (E30; E32)
Unit Roots
273003 Seasonality; Structural breaks; HEGY tests (M01; M10)
273020 Seasonality; Structural breaks; HEGY tests (M10; M11)
273028 Seasonality; Spurious regression; Monte Carlo (M20; M10)
273070 Stochastic Models; Co-integration; State Space Models; Inflation; Interest Rates; Share Market (E53; E61)
Unit-linked insurance
273067 Financial risk; Lapse rates; Marked point process (E50)
Vadjah-Ohlin Theorem
273040 Arrow-Ohlin Theorem; Convex order; Dispersive order; Excess wealth; Lorenz order; Optimal reinsurance ; Order loss ratios; Stochastic dominance (M52; M11)
Value-at-Risk Reserves
273052 MFR; Simulation; Downside Risk; Static Hedging (E40; M40)
Values
273001 Actuarial Profession; Vision; Future Trends (M00)
Vandermonde matrix
273015 Bond markets; Completeness; Ornstein-Uhlenbeck process (M10; M11)
Vision
273001 Actuarial Profession; Values; Future Trends (M00)
Whistle-Blowing
273002 Appointed Actuary; Scheme Actuary; Actuarial Opinions; Public Interest (M00)
Whittaker-Henderson Graduation
273029 Non-parametric graduation (M21; M10)
Wiener-Hopf factors
273027 Insurance Risk; Integrated tail; Random walk; Ruin probability; Subexponential distribution (M13; M11)
Wilkie's Model
273043 Methodology; Financial Economics; Jump-Equilibrium Model (E10; M10)
Workmen's compensation insurance
273007 Resampling; Non parametric (M10; B81)
Workmen's compensation
273071 (E60; B81)
Yield options contracts
273042 Crop insurance; Incomplete markets; Systemic risk (E10; E30)
